EVIDENCE HEARD IN GAS RATE CASE

Testimony Deals With Increased
Cost of Maintenance and Opera-
tion Since 1918

INCREASE ALLOWED THEN

Dividends Shown on Capital Stock,
Which is Third of Valuation Fixed
by Commission

Evidence was heard this morning in the commissioners' room of the court house on the petition of the Peoples Natural Gas company of this city for a increase of thirty-five cents a thousand cubic feet in their rates, by H. S. McNeely, an examiner for the Indiana public service commission, before which the petition was filed.

Much of the evidence was the same as that introduced before the commission in 1918 when the company's rates were raised to forty cents a thousand, with the exception that the company showed by the testimony of its secretary and superintendent and the gas well driller who has a contract to drill wells this year, that the costs of operation and maintenance had increased materially in the last two years.

T. M. Green represented the petitioner and George W. Young, city attorney, appeared for the city and H. E. Barrett for the remonstrators who object to the increase being allowed.

Geige W. Osborne, secretary of the company, testified that since 1918 his salary had been increased 25 percent, the superintendents 50 percent and that day labor had advanced almost 100 percent. He said the cost of pipe, meters, valves and other equipment had gone up from 75 to 100 percent and that some kinds of pipe had quadrupled in price. Mr. Osborne stated the company was unable to get some kinds of pipe, citing as an example that of 5,000 feet of two-inch pipe ordered in April, only 3,000 feet had been delivered.

Mr. Osborne testified that the contract price of drilling wells this year was \$1,590 as compared with \$950 in 1918 and that the materials which the company supplied when a well is drilled, had doubled in price.

He said that the company was now supplying about 500 consumers, which number did not vary much. He pointed out that the company paid \$350 in taxes, exclusive of federal taxes, in 1918 and \$612.50 this year; that there was a retroactive federal tax of \$120 in 1918 which will be practically the same this year and that the internal revenue tax for last year was \$240 whereas none was paid in 1918.

On cross-examination it was brought that the superintendent now receives \$30 a week as compared with \$21 in 1918; that the secretary's salary now is \$54.17 a month as compared with \$45 previously; that the cost of day labor now is \$4 and \$4.50 a day as compared with \$2 and \$2.50 in 1918.

Mr. Osborne said the company dug two wells in 1919 out of five contracted for and that the third well was completed this year but had to be abandoned because it was worthless. He said gross receipts for the fiscal year ending July 31, 1919 amounted to \$16,101.65 and estimated that the receipts for the present fiscal year would amount to \$16,967.

Through questioning by Mr. Barrett, it was brought out that the stock of the company consists of 198 shares with book value of \$100 each, and that the company paid a dividend of ten percent in 1918, twenty percent in 1919 and ten percent so far this year.

It was also shown that the value of the company was put at more than \$60,000 by the public service commission in 1918 when the commission was endeavoring to arrive at fair rate to be charged for gas, indicating that the stock is actually worth more than its book value.

Mr. Osborne testified there are now forty wells in operation and that in a test in 1918 they showed an average rock pressure of 47 pounds. No general test was made in 1919, he said, but this year a

MOTHER AND SON ARE FINED

Minne and Roy Tanner Plead Guilty
Before Squire Stech.

Mrs. Minnie Tanner and her son Roy, were arraigned this morning in Squire Stech's court, Mrs. Tanner pleading guilty to a charge of provoke and the son pleading guilty to a charge of profanity, in each case the fine and costs, amounting to \$12.50, being paid. A charge of assault against the son was dismissed.

The people were brought into court on affidavits preferred by John Henry Anderson, who paid a fine the day before. The people are residents of the extreme northwestern part of the county, and the trouble was over some chickens which required settlement in court.

BLOOD TRANSFUSION OPERATION PERFORMED

Jess Pugh, Formerly of This City,
Gives up Pint of Blood in Effort
to Save Son's Life

IS ILL WITH TYPHOID FEVER

Jesse Pugh, chautauqua and lyceum entertainer, who formerly resided in Rushville, submitted to a blood transfusion operation at Warsaw in an effort to save the life of his oldest son, Richard, age seventeen, who is critically ill with typhoid fever, according to word received here last night.

According to word received today the operation was not satisfactory as Richard suffered with hemorrhages all day yesterday, and his condition was not at all good today. William Pugh, second son of Mr. and Mrs. Pugh, was to have his blood tested at Fort Wayne today for transfusion.

Richard was taken sick about two weeks ago and the nature of his illness was not at first discovered. When it was found to be typhoid fever little hope was held out for his recovery, and he has shown very little improvement. Last week he underwent an operation for a perforated bowel and the operation disclosed his critical condition. Mr. Pugh arrived at his son's bedside late last week and a number of relatives from here are also with him.

In effort to revive him and bring him through a crisis, Mr. Pugh gave a pint of his blood to be injected into his son.

WOMEN ANGLER MUST ALSO BUY A LICENSE

Suffrage Rights Compels Unmarried
Women to Pay For Privilege of
Hunting and Fishing

VACATIONIST SHOULD BUY

One of the disadvantages that has come to women with the granting to them of suffrage rights is that they must now secure fishing licenses if they are unmarried and desire to fish in the streams of Indiana outside of their own county or the counties adjacent to their home county. This ruling has just been handed down by the state fish and game authorities.

Men, whether married or single are forced to secure fishing and hunting licenses outside of their own or adjacent counties so the women are still favored in that married women are not required to obtain licenses to fish or hunt.

The state authorities have also ruled that fishing on Sunday is permissible while Sunday hunting is prohibited.

Likewise attention is called by the state fish and game authorities to the fact that persons who are planning to spend their vacations at the northern Indiana lakes should buy their fishing licenses before they leave home. Visitors at the lakes, it is declared, often find their vacations held up because they have failed to provide themselves with licenses.

Mayor Is Reported To Have Said City Building Is Private Property

Question of Keeping Locked The
Safe Which Contains Police Court
Records Is Subject of Private
Meeting Held by City Council
After Regular Session Tuesday
Night.

SAFE STILL LOCKED TODAY

At an exclusive private after meeting of the city councilmen called together last night by Mayor Irvin, the subject of locking up the city records and the city building, was the topic for discussion among the councilmen and lasted for thirty minutes. All that took place or was said at the meeting is not definitely known, and the public records today were still confined within the safe in the council chamber.

After the regular business had been transacted and everyone except the councilmen were asked to leave, the private session was held. It is said on good authority that the mayor maintained that the city hall was a private building and the records were not for the public.

City Attorney George W. Young was requested yesterday to look up a certain city ordinance, and after he had gone to the city building, he found the public documents locked under the combination of the safe's lock.

His mission could not be fulfilled as only the city marshal and mayor have knowledge of the combination, and as usually is the case, neither official could be found when wanted, and the city attorney could not locate the ordinance which he wanted.

PRIMARY REPEAL BILL IS PASSED

Measure Goes Through House in
Special Legislative Session With
Little Opposition

NOW GOES TO THE SENATE

Concurrent Resolution Calling on
President to Re-establish Fuel
Control Approved

(By United Press.)

Indianapolis, Ind., July 21.—Passage of the primary appeal bill by the house and adoption of Senator Beardsley concurrent resolution calling on President Wilson to re-establish fuel control by the upper body featured the morning session of the special session of the legislature today.

A political skirmish accompanied the adoption of the Beardsley resolution.

Senator English moved that action on the resolution be postponed until March 4, 1921, predicting that "we will have a republican president then."

Senator Elsner, minority leader, replied with an attack against the administration of Governor Goodrich and with the declaration that President Wilson would give the matter a fair and just consideration.

By a vote of 26 to 15, the senate sent the resolution to the house.

Senator Beardsley introduced the resolution late yesterday. Speaking on the motion of Senator English, he said: "Senator English probably has plenty of coal in his bunker but there are millions of people who have not."

The house bill repealing the present primary law went through the house with few opposing votes. It will now go to the senate.

Governor Goodrich's bill creating a coal commission to regulate prices and supervise the distribution of coal was reported to the senate by the committee without recommendations.

BUY CITY PROPERTY

Mr. and Mrs. J. W. Ryon have purchased the property at 811 North Arthur street belonging to Dick Smith, and will move there next week. Mr. Ryon intends to move his grocery store to his new residence.

ed to find out about.

The matter of conducting city court under cover has been the topic for discussion among business men for some time. People can demand to see these records whenever they want to, but it is a matter of inconvenience, and is quite different from obtaining the records in the county offices, which are never locked from public inspection.

It is understood that the mayor last night stated that the council chamber and city building were private properties, but one of the councilmen pointed out that the people of Rushville and taxpayers maintain that building, and it is as public as the Rush county courthouse, and that records are also as public.

It is only a recent thing to look up the safe. A few weeks ago Albert C. Stevens, prosecuting attorney, and a representative of the Daily Republican, were in the city court looking over the police docket, Mr. Stevens' mission being to ascertain the number of cases in which the regular fee had not been collected for the state by the mayor.

During the investigation of these records, the police chief appeared and overheard what was going on, and within a few days the safe was locked from public inspection.

It has been pointed out that if the valuable papers should be locked it is no more than proper that they should be, but in case of locking up records in which public money and notice cases are concerned, they should be left open for inspection and should be left on the outside of the safe, like some of the other records.

CONFERENCE IN SECRET IS ASKED

Leaders of Organized Railroad
Labor Request Meeting With
U. S. Labor Board

PURPOSE IS NOT MADE PUBLIC

Evidence of Real Barrier to Com-
plete Agreement on Wage Awards
Seen Among Union Heads

(By United Press.)

Chicago, Ill., July 21.—Leaders of organized railroad labor today requested a secret conference with a full membership of the United States railroad labor board relative to the awards announced yesterday by the board.

The awards granted a \$600,000,000 increase to railroad labor.

Labor chiefs refused to make known what they would present.

They had been in executive session all morning when the request was made known. Judge Barton, chairman of the board, immediately presented the request to the other members and representative leaders resumed session pending the board's decision.

Evidence of a real barrier to a complete agreement on the wage awards was seen among the union leaders.

Fifteen executive heads of the rail unions are almost in continuous session, delaying the meetings of chairmen who are waiting for the recommendations.

When the grand council met today four courses of action were under consideration:

"An acceptance of the award under a 'protest'—a registration of their dissatisfaction over the terms as compared with the original demands.

"Acceptance of the award with a proviso that preparations for new wage demands immediately be started; these demands to be filed with the railway labor board as soon as practicable after September 1, the date the roads emerge finally from government control.

"Tentative rejection of the award and recommitment of strike issue.

"Flat rejection of the award.

E. BERGDOLL SURRENDERS

Alleged Draft Evader is Brother of
Grover Bergdoll

New York, July 21.—Erwin Bergdoll of Philadelphia, alleged draft evader, for whom the federal authorities sought two and one half years, surrendered himself today at Governor's Island. He is the brother of Grover Cleveland Bergdoll, for whom a nation wide search is now being made.

Bergdoll was ordered confined at Ft. Jay prison in which his brother was held prior to his escape from armed guards while on leave at his mother's home.

Bergdoll will probably be tried under peace time regulations in which case he will be sentenced for only six months imprisonment if convicted.

RESIGNS AS THE NEW SALEM POSTMASTER

George W. Higgins Announces He
Has Quit and Examination
Will be Held Here Aug. 14

TOO MANY BOSSES, HE SAYS

George W. Higgins, postmaster at New Salem, has resigned his position, to become effective September 30, and an examination for the appointment to that office will be held in Rushville on August 14. All applicants for the position should file certificates to that effect on application blanks which are available at the local postoffice or the New Salem office.

The applicant must have reached his 21 birthday and the examination is open for both men and women. The applicants must also reside within the territory supplied by the postoffice, and must be citizens of the United States. The compensation at his office for the last fiscal year was \$578, it being a fourth class postoffice.

The New Salem vacancy is the second postoffice in Rush county in which a postmaster has resigned this summer, the other one being at Milroy, in which a woman was the successful applicant, being the only one that took the examination. The examination will be held in the court house here, conducted by the local postal examination board.

Mr. Higgins stated that the reason for his resignation was because of the fact that the office "had too many bosses," and the salary was too small to justify his keeping the place.

WILL ATTEMPT TO REGULATE THE PRICES

State Federation of Farmers' Asso-
ciations Hopes to Settle Fertilizer
Controversy

TO ANNOUNCE RESULTS SOON.

Lewis Taylor, secretary of the Indiana Federation of Farmers' associations, has directed letters to county agents registered among the farmers about the high price asked for fertilizers, and in his letter promises the township organizations that the state association will attempt to regulate the price, and will announce in a few days what success they have met with.

It will be recalled that Orange and Richland township farmers in this county recently opposed the high prices asked for by the fertilizer companies and have decided to boycott the goods until the price comes back to normal, which they maintain must be a 20 percent reduction. Farmers at a mass meeting here recently are opposed to using fertilizer at the present prices.

Mr. Taylor's letter states that many farmers will not sow wheat this fall on account of the fertilizer, and in order to bring about a normal acreage, the state association is now attempting to bring about a regulation of prices and are inquiring into the amount of fertilizer that is available for the farmers this fall.

MAYOR ATTACKS PEOPLES GAS CO.

Reveals Alleged Workings of Con-
cern Which is Seeking an
Increase in Rates

IS A FORMER STOCKHOLDER

Street Commissioner is Instructed
To Give Property Owners
Notice to Cut Weeds

Assailing the proposed increase in gas rates, Mayor A. B. Irvin, as a former stockholder in the Peoples Natural Gas company revealed to members of the city council last night the alleged workings of the company and suggested that the city council should take action through their city attorney, George W. Young, and offer a protest on behalf of the residents of the city.

The matter of hearing the petition of increased rates which was being held today in the court house, was brought up by councilman Abercrombie, at the meeting last night, and the matter was soon the topic for much discussion, with Mayor Irvin leading an attack on the proposed increase.

He first cited his experience as being a stockholder in the gas company, paying \$40 for a share, which he later sold for \$180. He stated further that he had investigated the financial condition of the company, and had learned that they had a surplus of \$46,000, and that the stockholders were continuing to receive large dividends on their investment.

The directors of the gas company were also assailed by the mayor, who stated that each of them received \$400 a year and free gas for their homes, while two of these directors were also directors of the Rush County National bank, and received only \$60 a year for their services. He pointed out the difference in responsibility of the two jobs, and their contrast in salary received.

The matter of free gas was also discussed, as the mayor stated that four of the five directors lived in large houses and used an unlimited amount of gas, while those paying for it were not given gas when most needed. The four directors he referred to, have furnaces and the gas does not register through a meter.

He cited another instance in the petition of the gas company in which they state that one reason for higher rates is because of the price of labor has advanced. He asserted that they employ only two men, and that their salaries are the same now as they were six and seven years ago.

The salary of the officials were also said to be enormous and he cited an incident when he attempted to ascertain how much money one of the officials was receiving. He was then a stockholder, he said, and was inconvenienced in finding out the amount of money the officials was receiving.

Following the discussion, the city attorney was asked to appear before the Public Service Commission at their hearing today, and protest against an increase in rates. The city building is among the consumers that will be affected by an increase in rates.

The subject of weeds growing on vacant lots and other places within the city limits was discussed, and the street commissioner was ordered to give property owners ten days' notice and then cut the weeds himself in case the order had not been complied with, charging the amount up to the property owners.

John Singer, street sweeper for the business district of the city, was given additional territory last night, which includes all streets in the business district which had heretofore been taken care of by two street cleaners. He was given a raise in wages from \$17 to \$20 a week for his services.

The mayor's report showed that for the quarter ending June 30, he had turned over to the city treasurer \$130 and the county treasurer \$57 in fees collected in fines in the city court.

JACK JOHNSON WILL BE SENT TO PRISON

Colored Pugilist is Arrested in California After Leaving Country on \$30,000 Bond

WHITE SLAVERY IS CHARGE

San Diego, Calif., July 21.—Jack Johnson fugitive pugilist, crossed the international boundary line and was immediately placed under arrest on a white slavery charge, yesterday.

Johnson came across the line with Sheriff Cline, of Los Angeles county. After reaching United States soil after an absence of several years, Deputy Sheriff Cooley, San Diego county, stepped forward and read a warrant charging Johnson with white slavery. The men then got into an automobile and were driven to the San Diego county jail.

Chicago, Ill., July 30.—Jack Johnson, fugitive pugilist, arrested in California, will be turned over to the United States marshal when he arrives in Chicago, to be taken immediately to Fort Leavenworth prison. It was announced in the office of District Attorney Cline.

"There is nothing to do with Johnson except send him to prison", James Miller, assistant district attorney, said today.

Johnson was convicted on a charge of white slavery. He was charged with the transportation of a white girl by the name of Belle Schrieber from Pittsburg to Chicago. She formerly lived in Minneapolis. Johnson was released on \$30,000 bond following an appeal. The son left the country.

EVIDENCE HEARD

Continued from Page One
test completed on June 7 showed an average rock pressure of 37 1/2 pounds pressure.

Mr. Osborne stated that in addition to the directors and superintendent, farmers on whose land wells were drilled, received free gas. In its order of 1918, the state commission ruled that the directors and employees of the company could continue to get their gas free under a law which provides that a corporation has the legal right to give its product to its employees if it so desires.

The attorney for the remonstrators also brought out that the directors receive \$400 a year each as salary, which was allowed by the state commission in its order of 1918.

John P. Frazee, Jr., local coal dealer, testified that coal which is used by the company sold for \$3.50 to \$6.50 a ton in 1918, and that this year the same grade of coal retailed at \$10.

James Keating, superintendent, testified to the high cost of materials, and said that two wells had been abandoned last year and one this year.

George F. Melcher of Shelbyville, who has the contract to drill wells for the company this year, testified as to the increased cost of drilling.

THE NEW OVERLAND

On Triplex Springs nimbly glided over the nation's roughest roads has written a wonderful story of Stamina. The story began with the unprecedented pre-production test covering 250,000 miles of the wild country of the great Southwest. In its first eight months of service among 75,000 owners climax upon climax has been piled up in records of extraordinary performance.

The remarkable performance of the Overland is due largely to its jar-absorbing Triplex Springs, which prevent the usual pounding of rough roads from causing discomfort to passengers. They also reduce the stress and strain on motor and chassis, preserving the car for longer wear and reducing upkeep. The chassis itself of finest alloy steel adds to the stamina of the car as a whole.

The success of the Overland Triplex Springs has changed the attitude of thousands toward the light type of motor car. You cannot truly appreciate the comfort, economy and stamina of the new Overland until you have actually ridden in this car.

DELEGATION SENT BY ANDERSONVILLE

The Rev. C. A. Swain, Pastor and Members of Congregation Attend U. B. Revival

EVANGELIST CARTER SPEAKS.

The meetings at the Coliseum yesterday and last night were well attended. The Rev. C. A. Swain, pastor of the U. B. church at Andersonville, and a member of his congregation, reinforced the evangelists.

Evangelist Carter preached the sermon last night. He talked on the theme "Folly of trying to cover your sins without the blood of Jesus". His appeal was very tender and heart searching, it was stated today.

As the meetings continue men and women are seeing the need of deliverance from sin on Bible lines, the evangelists declare.

Hilda Farthing, Esther Hardwick and Lydia Waning sang a very beautiful trio last evening. Meetings will be held every night through this week.

Amusements

Mary Miles Minter Here Tonight

Mary Miles Minter will be seen tonight at the Princess theater in, "Anne of the Green Gables", which is said to be a comedy of the highest class, featuring the young star. Besides the feature picture, a Pathe News will be shown. Thursday and Friday, Wallace Reid in, "The Dancing Fool" will be the attraction at the Princess, and a Mack Sennett comedy, "Let Her Go", will conclude the program. In addition to the two features, a special musical program will be rendered.

"Human Stuff" Here Friday

"Human Stuff," the newest Universal production starring Harry Carey, and said to differ in many respects from the photodramas in which the star has appeared of late is to be seen at the Mystic Theatre Friday.

What makes "Human Stuff" somewhat different is the fact that its early scenes are laid in the conventional East and show the star in an environment foreign to his accustomed stage characterizations. He is seen as the son of a wealthy manufacturer who, after trying his hand at running the business, is forced to admit himself a failure. He decides to seek adventure and fortune in the West, where his father owns a ranch.

Mistaken for a tenderfoot who has come to interfere with their nefarious plans, his neighbors conspire to drive Jim from the ranch, but here is in his element and enjoys the struggle against nature and the rough men who are opposed to him. Then a girl enters into his life and the fight becomes more exciting. Situations follow in rapid succession and the story ends in a typical Carey climax.

On Thursday the offering will be "The Lion Man," a Universal Western and a Franey comedy.

TO STUDY TRUCK'S VALUE

Indianapolis, July 21.—Indiana is to become the center for scientific study of the economic value of the motor truck. The motor truck association of America has established offices here to study the possibilities of the rural express and the short haul with the motor truck.

Farmer Quit Work For Dizzy Spell Got Best of Him

Had a Stubborn Liver, Had to Take
Medicine Every Night Often
Waked With Vile Taste in Mouth.

Dreco Put an End to This Hunting-
ton Man's Troubles.

"I frequently became so dizzy that I had to stop my work," declared Mr. Amos Coleman a well known truck farmer 63 years old of West Huntington, Ind.

"I had to be taking medicine all the time for my sluggish liver and constipated bowels. I'd often wake up during the night with a vile taste in my mouth, my appetite fell down to almost nothing, really I got to where I didn't want to even look at food.

"One bottle of Dreco cleaned my liver off, regulated my bowels and I now have a large appetite, I never get dizzy, sleep well, in fact I'm feeling better than in a long time and credit Dreco for this great change."

Since the introduction of Dreco in this section many people have given it a fair trial and declare it has given them great relief from their suffering.

Dreco, being a combination of the juices and extracts of herbal plants combines very readily with the juices of the stomach and that is why it's action is so prompt and so positive. It is soon noticed after taking Dreco that the gas stops forming; the food digests perfectly, giving strength to the entire body, and renewing the vigor and vitality.

Dreco rouses a lazy liver to full action, strengthens weak kidneys overcomes constipation, headaches and biliousness, quiets the nerves and banishes catarrh.

All good druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson & Co.—(Adv.)

Plenty of Harvesters

The term, "army of reapers," is no longer a mere figure of speech. There is a veritable army of 100,000 men moving through the western wheat belt, harvesting the crop. It was organized by the federal Department of Agriculture, with the co-operation of the states most interested.

As a result, the grain is being reaped without difficulty. While the country as a whole is grievously short of labor, particularly farm labor, the farmers in the big grain sections have enough help, for the first time in many years.

High wages, said to average \$7 for a ten-hour day, are a strong inducement, but the chief reason for this satisfactory situation is organization and direction of the labor supply from a responsible center.

It has been demonstrated now that labor, while remaining free to do as it pleases so far as individuals are concerned, can be marshalled to

Bulgarian Blood Tea

Is the greatest family medicine in the world today. One person tells how it broke up a bad cold in one night, another tells how it saved them from pneumonia, another tells how it knocked out the rheumatism, another will tell how it helped their stomach and bowels. No wonder it is used and praised by millions of people. Get Bulgarian Blood Tea today from your druggist, and then you'll be ready to tell the good news to other sufferers.—(Adv.)

meet a big seasonal and sectional demand in agriculture. Why not in other industries, and other sections, and why not in all seasons?

Why cannot the moveable labor of the country be utilized in this way for all kinds of industrial emergencies? Why should there ever be large numbers of men idle in one section or in one industry when another section or industry needs them? Why should "seasonable occupations" prevent workers from finding employment elsewhere or locally in other work, during their dull season?

There is ample room for the government to develop this plan that is now working so well in the wheat fields of Kansas and Iowa.

They Admit It

There isn't a doubt but what European countries need American money for construction work, and also for reconstruction work. They frankly admit it.

Some of our big financial institutions favor letting them have it, at heavy interest—the people's money that is on deposit with them.

But most people in this country favor keeping our money at home. There is plenty of construction work here, and it all requires money.

There are even many of us who have the temerity to feel that ten billions of dollars is about enough for Europe to owe us at one time. It is wiser to get some of that back before handing out more, or at least the interest on those ten billions.

Let's put our own house in order before we start another kindergarten for pauperized foreign governments.

The bag we are holding is quite large enough as it is—ten billions large.

All men have minds of their own, but some rent them out to others for a price.

Every normal girl has rosette dreams of the time when she will become a wife and mother. But time, with some, transforms the dream of bliss into a nightmare of reality.

It's easier to tell others how to run their business than it is to run your own—but not so profitable.

Many foolish men know all things. A few wise ones know a little.

Never ask a woman her age. It is unbecoming to invite her to tell a lie.

The civilized world of today and the donkeys within it are surely

Some Blade— You'll say so!

YOU simply can't believe that such sharpness is possible—until you try a Durham-Duplex blade. A few broad strokes and—there you are—as smooth as the palm of your hand!

It's the scientific sharpening process that does the trick—and back of this the hard, oil-tempered Swedish steel.

They're the longest, strongest, keenest blades on earth—hollow ground, two-edged, detachable and guarded.

Some blade—you'll say so—and "some blade," is right.

akin. Both are experts at progressing backward.

"Whole hog or none," was the motto of certain gentlemen in the early days. Today it has been modernized and abbreviated into "whole hog."

It's an easy matter to find people with whom you can argue, but it's a devil of a job to locate one you can convince.

Sap and Salt

By BERT MOSES.

A fellow can stand almost anything if he is well.

Putting men in jail often leads to results much worse than leaving them out.

You can't buy vegetables that taste half so good as those you raise yourself.

Raising chickens and gardens together results in raising—well say it yourself.

Hez Heck says: "It makes a girl awful sore when she flirts and gets no results."

The fine art of successful business consists largely in giving people more for their money than they expect.

Here's Where The
Fun Comes In

The Lure of The Horse Shoe

On a small vacant lot in the rear of the Daily Republican and east of the Twentieth Century Dry, Cleaners, facing on the Subway, is a horse shoe pitching "links" maintained, fostered and carefully equipped and maintained by Ball and Bebout.

Business men thereabouts, having no tennis courts or golf links on which to disport themselves, frequently devote themselves earnestly to "pitching the shoes" before an interested and demonstrative audience.

The other morning Charlie (Dutch) Caron put on a batch of peanuts for roasting and happened to think of a mission down at his ice cream plant which also faces on the Subway and is directly across from the horse shoe grounds. He went but little did he think of the consequences.

Soon the odor of burnt peanuts began to permeate his candy and ice cream shop. Mrs. Caron was in the front part of the store, and realized the trouble, as also did a number of patrons. A hurry up call was sent to the "links" but Charlie had departed on the run for his place of business and Mrs. Caron found him in the rear industriously stirring the parched peanuts in an effort to salvage what few he could of the roast.

CORRECTION IN AD

In the Bliss & Cowing advertisement in yesterday's issue of the Daily Republican, the prices given in two items were reversed. The price of men's pants should have been quoted \$3.20 up instead of \$5.95 up and boys' suits should have been \$5.95 up instead of \$3.20 up.

Foley's Honey and Tar COMPOUND

IS A TIME-TRIED REMEDY that can be relied upon to get rid of coughs and colds that lead to serious illness if neglected.

Every User a Friend

"The only remedy we ever use for coughs and colds is Foley's Honey and Tar Compound. It has been our standard for years, and it never fails us."—T. H. Foley, Marquette, Mich.

"I surely know the worth of Foley's Honey and Tar, as I have taken it with good results. Also have sold hundreds of bottles."—A. L. Stansbury, Parkersburg, W. Va.

Children like Foley's Honey and Tar. It contains no opiates, and will not injure a delicate stomach.

H. C. L. Blamed For Increase In Breach of Promise Suits

Milwaukee, Wis., July 21—

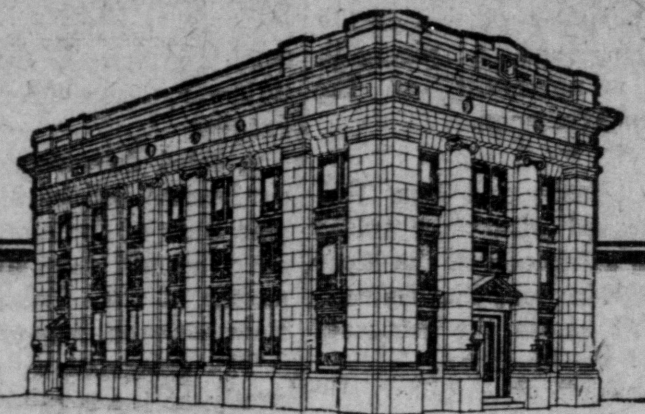

The High Cost of Living is offered as an explanation of the increase in the number of breach of promise and alienation of affection suits filed in Milwaukee during the past year.

The number of such cases filed in the past twelve months exceeds that of the previous 3 years, according to records of the civil and circuit courts. Since the first of the year twenty-two breach of promise suits have been filed and sixteen actions for alienation of affection have been brought. Too poor to wed, is the excuse.

New Tasteless Castor Oil Is Easy To Take

Strength and Purity Remain The Same, But Unpleasant Taste Is Removed

A remarkable process perfected by the chemists of Spencer Kellogg & Sons, Inc., has resulted in a great improvement in castor oil, the reliable old family remedy. This new tasteless castor oil has the same strength and purity as the old-fashioned kind. It's 100% pure castor oil. Nothing has been removed but the nauseating taste. Think what this means to mothers and their children. When the doctor says "Give them castor oil," there need no longer be any trouble. Children need never know they are taking castor oil. Grown-ups will also appreciate the difference between Kellogg's Tasteless Castor Oil and the old-fashioned nauseating kind. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c., 35c., and 65c. Adv.

SPICELAND SCHOOL TO SEND DELEGATES

The Tarry-A-While club will be entertained Friday afternoon at the home of Mrs. Ray Compton in East Sixth street.

Mrs. A. C. Hawn of Indianapolis was the dinner guest of Mr. and Mrs. E. B. Ponnstone yesterday at their home in North Harrison street.

Mrs. Carl Ganning entertained the Tuesday Afternoon Bridge club yesterday afternoon at her home in West Tenth street. The guests spent the afternoon over the card tables.

The children in the primary department of the Main Street Christian Sunday school exclusive of the cradle roll, enjoyed a picnic in Green's woods northeast of the city yesterday afternoon.

Mrs. Jack Knecht and Mrs. Will Carter entertained with three tables of Bridge this afternoon at the home of Mrs. Knecht in East Sixth street. After the card games the hostesses served a delicious luncheon.

Miss Katherine Guffin assisted by Miss Lois Reeres, will entertain the members of the Psi Iota Xi sorority tomorrow afternoon at three o'clock. All members are requested to be present and to bring their dues.

Announcement has been received here of the marriage of Miss Nellie Woods, of Washington, D. C., daughter of Mr. and Mrs. John Woods of Arlington to William George Rose of Washington, D. C. The wedding took place Saturday, July 3.

The Rebekahs and their families will hold a picnic next Sunday, July 25, at Webb's Ford southwest of this city. All those without a way to go are requested to meet at the Odd Fellows hall at nine-thirty and means will be provided by the committee.

Mr. and Mrs. R. O. Veatch had as their dinner guests Sunday at their home west of the city, Miss Mabel Hiner of Homer, Mr. and Mrs. Zeno Hodge and Mr. and Mrs. Robert Lanchner of Frankfort, Ind., the house guests of Mr. and Mrs. Hodge.

The Loyal Women of the Main Street Christian church held a class meeting yesterday afternoon at the home of Mrs. P. H. Chadwick in North Willow street. A social afternoon was enjoyed by the thirty-three members present and light refreshments were served at the close of the meeting.

Mrs. Harry McManus was hostess for the members of the Loyal Daughters class of the Main Street Christian church last evening at her home in North Main street. The evening was enjoyed with an informal party and at the close delicious refreshments were served. Twenty-five members were present.

Mrs. W. W. Wilcoxson was delightfully surprised Tuesday evening when a number of her friends gathered at her home west of the city, honoring her birthday. The guests were Mr. and Mrs. Ernest Linville and family, Mr. and Mrs. John Warfield and family, Mr. and Mrs. Tom Miller, Mr. and Mrs. Reed Mull, Mr. and Mrs. Frank Byrd and family, Mr. and Mrs. John Gibson and daughter, Mr. and Mrs. Willard Brown, Mr. and Mrs. Riley Stevens, Mrs. Charles Moorman and daughter Mary, Mr. and Mrs. Charles Johnson and the Misses Ruth Crull, Marie Cross, Forrest Moore, Parvel Moore and Herbert Stevens.

STIMULATES LOAN DRIVE

Indiana Campaign For Polish Relief is Benefited by Reports

Indianapolis, Ind., July 21.—News that the allies have made overtures which may bring about the end of the Polish-Bolshevik war has caused renewed activity among those working for the Polish Government Loan, throughout Indiana. The loan, which consists of a bond issue of 50,000,000 is being floated almost exclusively among those of Polish birth or blood in this country. The money is to be used to purchase materials in this country with which to rehabilitate the industries of Poland. If the war were ended in the near future, it is being pointed out to Indiana Poles, it would be doubly valuable to the Polish Republic to have money on hand with which to immediately devote all its energies to

Academy Furnish 2 of Indiana's 10 Representatives to International Conference of Friends

DAISY BARR GOING ALSO

Chester Reagan, Principal, Leaves For N. Y. July 30 to Sail—Miss Wildman Already in Italy

Spiceland Academy will furnish two of Indiana's ten delegates to the International Conference of Friends in London, England, in August. They are Chester Reagan, principal of the academy and well known Spiceland coach, and Miss Edith Wildman, another member of the faculty.

A third delegate to the London conference will be Mrs. Daisy Douglas Barr of Indianapolis at present, but who will take up her duties as pastor of the Friends church in Newcastle on September 1.

The delegates were appointed recently at the regular yearly meeting of Friends at Richmond. That two members of the faculty of the Spiceland academy were appointed to represent the Indiana yearly meeting was considered an unusual honor.

Mr. Reagan states that he expects to leave for New York on July 30 and from there will sail direct to London. He will spend a week in London attending the conference. He will then proceed to the continent and make a tour of France and other countries. He stated that he would visit the battlefields of the recent war and expects to go as far north as the Hindenberg line. He plans to return to Spiceland just in time for the opening of school this fall. Mr. Reagan has lived in Spiceland for some time.

Miss Wildman is already in Italy, where she went shortly after the close of school. Before attending the London conference, she plans to tour Italy, France, Switzerland and possibly Germany. She also expects to return just in time for the opening of school. Her home is in Selma, Ohio.

Mrs. Barr has not announced when she will leave for the conference but expects to return in time to take up her duties at the local church on Sept. 1.

DIAMONDS ARE HOBBY FOR JAPANESE FOLK

Platinum Jewelry is a Craze Among Orientals and Money is Plentiful For Their Purchases

JEWELERS CAN'T SUPPLY IT

(By United Press.) Chicago, July 20.—The Japanese have gone mad over platinum jewelry, according to George R. Allen, recently returned from Seoul, Korea.

"It is no exaggeration to say," declared Allen, "that the Japanese in Japan are wearing \$10,000,000 worth of platinum jewelry. Among the wealthy and fashionable people of the mikado's empire, every form of platinum jewelry is in demand. The jewelers cannot begin to supply the wants of their customers. Platinum has come to be the fashionable foil for diamonds and this is a combination of the highest priced gems and the highest priced metal.

"But price makes no difference to the Japanese. This is a period in Japan, as it is in this country of high wages and big money and everybody is indulging in an orgy of buying. The higher the cost of anything the more desirable it is. The war made millionaires overnight and gave the working classes more money into Japan, the nation has become a great diamond buyer. Before the war it bought few diamonds.

Allen says Siberia is a treasure house of gold and platinum but it will be years before its mineral wealth can be exploited. He declares the soviets destroyed three \$600,000 dredgers used in the platinum mines in the Ural mountains, once the world's chief source of platinum supply, and no work at all is being done in these mines. The world is now forced to depend for almost all its platinum on the mines in Colombia, South America.

Its economic problem. A peculiar aspect of the loan, reported by national headquarters in Washington is that the laboring class of Poles have subscribed generally while the rich Poles, generally speaking, have not.

SILK HOSE

For the remainder of this sale we have reduced the entire stock of Silk Hose, so we are sure you will avail yourself of the opportunity. Our very best qualities of Gordon Hose are all included so you may be assured of the wearing qualities. Below you may find prices that are sure to interest you.

This isn't a sale of a few stickers—but a sale of garments chosen with scrupulous care—meeting the tastes and preference of most exacting women.

THE LAST WEEK Of Our JULY CLEARANCE SALE

Our sale is a decided success. Patrons of this store who have looked forward to this event and have not yet been able to attend have but to go over these columns carefully to see that we have planned some genuine surprises in extra value giving for them. There is every opportunity in this sale to provide warm weather needs at prices decidedly below present levels.

VOILES

Never before in the history of the store have we had such a sale of Voiles for summer frocks. The values have been so remarkable our patrons have not failed to find a dainty, sheer material for at least one or two dresses.

Owing to our fortunate purchase from an eastern firm of their entire stock at a decided reduction we are still enabled to offer our customers an excellent assortment. The prices are cut nearly in half and the patterns good.

Savings in Silk

Beautiful Georgette Crepes at a decided reduction. Satins, taffetas, jerseys, anything you may choose from our silk department you will be pleased to note the price change. Striking skirt patterns in good patterns reduced from \$9.50 to \$6.50 a yard.

Big Reduction in Low Shoes

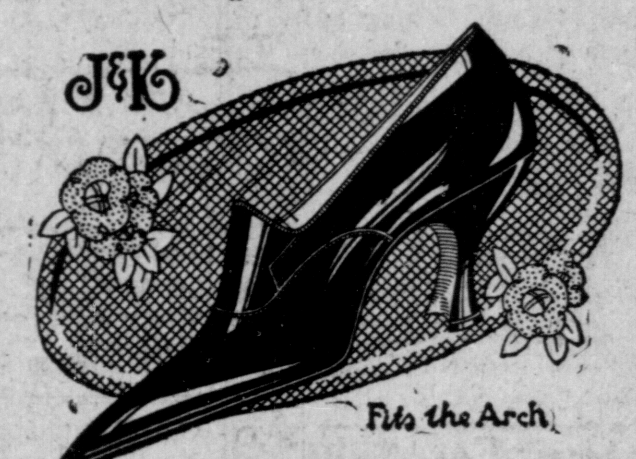

Every low shoe in our large stock—Men's Women's and Children's—has been marked to leave our shelves. Not only the broken lots but the entire stock of good sizes and latest styles.

Where you don't find your style and choice in a certain lot, we are offering you the great reduction of 20%.

The special lots are cut even more. The shoe in the cut to the right is an example of latest style offered to you

Less 20 per cent

The very best styles are included in this sale.

Rugs — Linoleums — Window Shades — Carpets — All Floorcoverings —

are included in this sale. Our Wilton Rugs are priced at nearly cost today and our customers are taking advantage of this big saving. If you are in need of anything in the line of floorcoverings or window shades, buy today and we will hold them for you until you are ready. We own our floorcoverings on an early market, which is to your advantage.

LAST WEEK OF MAUZY'S JULY CLEARANCE SALE THE MAUZY COMPANY

"Sunday Suit" Relegated To the Prehistoric Ages

Demise of Old Custom of Having "Spare Outfit" Discloses America is Coming to be Best Dressed Country.

U. S. MEN LEADING THE OTHERS

New York, July 21.—England has had to give way to America as the best dressed country. For sartorial preexcellence, American men now lead every other nationality. Nor is New York in the van even in this country. Fastidiousness in dress is just as characteristic of the masculine population of Portland, Maine, or Seattle, Tulsa, Oklahoma, or even Cedar Rapids, Iowa, as it is of the made millions of the metropolis.

The above represents the consensus of opinion of a large group of men who ought to know. Other clothiers and furnisiers have made similar assertions heretofore, but the latest expression concerning American superiority has just been voiced by the branch managers of a clothing house, who are here for a conference on fall styles and business conditions. These men of necessity make it their business to know the standards of men's wear, for they market the collars and

BRITISH CHALLENGER WINS SECOND CONTEST

Shamrock IV Places Herself Within Striking Distance of the Coveted Trophy

IN LEAD MOST OF THE TIME

Aboard the United States Destroyer Goldsborough, (by wireless) July 21.—The Resolute turned the outermark more than two minutes ahead of the British challenger, Shamrock IV in the third series of the yacht races for America's cup today.

The Resolute was about one half mile ahead of the Shamrock. The wind was full 12 knots an hour.

Sandy Hook, N. J., July 21.—Shamrock IV, British challenger for the America's cup, sailed home wing and wing to her second victory over the defender, Resolute, Tuesday and placed herself within striking distance of the coveted trophy. Today's race—if she wins it—will clinch the series for Shamrock IV, while Resolute must take three straight to keep the famous cup on this side of the Atlantic.

Today's race, the first of three starts in which both yachts crossed the finish line, saw the trim hull of Sir Thomas Lipon's Emerald chal-

lenger and her vast spread of white canvas always in the lead, save for a brief period at the start when her balloon jib topsail fouled as it was broken out and Resolute forged temporarily into first place.

The thrills were all saved for the last twelve miles of the thirty-mile triangular sail. Both boats had laxed along in a vagrant breeze, Shamrock steadily drawing away from her glistening white pursuer, until the challenger came within about two miles of the second mark. There she caught a freshening northwest and spurted up, breaking out her balloon jib topsail and spinnaker as she rounded the stake, for a wing-and-wing run home before the breeze.

BIG CHROME DEPOSIT

Belgrade, (By Mail)—Discovery of a chrome deposit in Serbia large enough to meet the whole world's chrome demands has been announced here. The existence of the deposit was first suspected when grateful natives, who had undergone treatment at the American Red Cross hospital at Prizren, on the Albanian border, returned with presents which were found to be samples of rich ores.

Flour From Many Products.

Chinese millers make flours out of wheat, barley, oats, rye, buckwheat, chestnuts, millet, potato, peanuts, peas, beans, lentils, pulse, rice, almonds and fifty other vegetable substances.

NOTICE OF PETITION TO REPAIR DRAIN

State of Indiana, Rush County, ss: In the Commissioners Court, August Term, 1920.

In the Matter of the Petition of George B. Moore, Jr., to repair drain. To: Albert H. Morris, Dorothy Overstreet, Margaret Wymond, William Davis, Nellie Betker, Mary A. Laughlin, Whitelaw Spurrier, Hannah Mauzy, Orletta Wilson, Cora Moses, William Merrill, Charles Burnstein, Mary Ellen Bank, John A. Demmer, Mary Demmer, Alfred Donegan, Ross Neary, Clara Neary, Isaline Bussell, Sarah E. Price, Alice Winslow, Fannie Stonecipher.

You are hereby notified that I have filed in the office of the Auditor of Rush County, Indiana, a petition asking for the repair of a certain drain known as the John J. Fouts et al. Ditch, heretofore established in the Commissioners' Court of Rush County, Indiana, by increasing the width and depth of the same. That the said drain is an open public ditch and the following is the route of said drain:

Commencing on lands of Guy, Ned, John and Roy Abernethy on the east line of the northeast quarter (1/4) of Section thirty-one (31), Township fourteen (14) north, range ten (10) east, said point being at the mouth of said drain, thence in a southerly westerly direction throughout the southeast quarter (1/4) of said Section thirty-one (31) and through the lands of said Abernethy brothers to where the said drain crosses Eleventh street of Rushville, Indiana; thence in a southerly westerly direction across what is known as the City Park, Rushville, Indiana, across Ninth street, Sixth street, Arthur street, and Seventh street, to where the same crosses under the C. & C. traction line, thence in a southerly westerly direction to where the same crosses under the L. E. & W. and Big Four Railways; thence in a southerly westerly direction following the course of said branch as it now is to where the same would cross the road running north and south on the east side of the Anna Denning lane, which is the west line of the corporation of Rushville, Indiana; thence in a northwesterly direction parallel with the C. I. & W. R. R., to where the same connects with what is known as the Abram Hackleman ditch; thence south under the C. I. & W. R. R. to where the same crosses what is known as the Old Brookville Road; thence in a southerly westerly direction following the course of the branch as now located to where the same crosses what is known as the Shelbyville turnpike; thence across said turnpike and in a southerly westerly direction to where the same passes under the P. C. C. & St. L. Ry.; thence in a southerly easterly direction to the line dividing the lands of George B. Moore and Margaret Wymond; thence south on said line to the south line of the southwest quarter (1/4) of Section six (6), Township thirteen (13), Range ten (10), thence in a southerly easterly direction through the lands of Birney Anderson to where the same empties into what is known as Big Flat Rock River.

You are hereby notified that said petition will be docketed for hearing in said Commissioners Court of Rush County, Indiana, on the 14th day of August, 1920.

Dated this 20th day of July, 1920. GEORGE B. MOORE, JR.

AN ERROR

of 2 millimeters in measuring the distance between the pupils of the eyes, when fitting glasses, may seem insignificant, but in reality would cause you much pain and discomfort in certain forms of eyestrain. Our eye examinations are so carefully and skillfully performed that errors are virtually impossible.

AT LAST, RELIEF FROM RHEUMATISM

Now Is An Excellent Time to Get Rid of Its Tortures.

Rheumatism is more than a mere local disorder confined to the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The millions of little disease germs that cause the disease must be reached and eliminated from the blood before real relief can be had.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood remedy because it searches out and eliminates the disease germs which infest the blood. For free expert medical advice regarding your own case, write fully to Chief Medical Adviser, Swift Laboratory, Atlanta.

Fence Posts That Resists Decay

Long-Bell Fence Posts are made decay proof and fire resistant by treating with Creosote (Dead Oil of Coal Tar) by the pressure-vacuum process. This preservative penetrates the entire sapwood.

We have these Long-Bell Posts in our big stock of building supplies, and recommend them as the best you can buy. We will consider it a pleasure to have you come in and let us help you figure on fence and other building plans.

"I Can't See How I Lived Through It"

Evansville Woman Thanks Tanlac For Ending Her Fifteen Years of Suffering—Gains 25 Pounds

"I have gained twenty five pounds in weight since taking Tanlac and never felt better in my life," was the remarkable statement made by Mrs. Louis McWilliams of 909 Fifth Avenue, Evansville, Ind.

"After looking back over my fifteen years of suffering I don't see how I managed to live through it all," said Mrs. McWilliams. "I had such a severe case of stomach trouble that I could scarcely eat anything at all," and even this little bit made me simply miserable. I bloated all up with sour gas until I could hardly stand it, and I suffered terribly from headaches and dizzy spells. Why, everything seemed to be spinning around and at times I would fall down and just have to lie there until someone picked me up or until the spell wore away. My kidneys bothered me continually and I suffered so with pains in the small of my back and in my left side that I don't think it could have been worse if someone had been sticking me with a sharp knife. I was so nervous that at nights I could scarcely

sleep at all. My complexion became very sallow and I got so weak that I couldn't do any of my work.

"After reading about the good Tanlac was doing so many other people," I began taking it myself, and it's the best thing I ever did," for I began improving from the very first and am now a well woman. My stomach is in such fine condition that I can eat anything I want, and I have been built up in weight from one hundred and thirty to one hundred and fifty-five pounds. The headaches and dizzy spells are all gone, my complexion has cleared up, I have improved so in every way that I look like a new person. My kidneys never bother me now and my back and side are entirely free from pain. At night I sleep like a child and in the mornings I'm so full of energy that I can do all my housework, just as easy as I ever could in my life. I'm so grateful for what Tanlac has done for me that I can't praise it enough, and I feel that it is my duty to tell others about it."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty.—(Adv.)

WATKINS SLAPS OTHER 2 PARTIES

Prohibition Temporary Chairman Declares Republicans and Democrats Balance the Scales

CRITICIZES OLDER PARTIES

Says it Was a Disgraceful Quarrel Between President Wilson and Congress—Attacks Liquor Sales

Lincoln, Neb., July 21.—Aaron S. Watkins, temporary chairman of the National Prohibition party convention, today held the Republican and Democratic parties in the scales and declared they struck an exact balance.

Declaring the two older parties had produced a stone when the demand was for bread, Watkins criticized both impartially.

The Prohibition party's mission is not ended, Watkins declared. Former liquor selling places are being held intact, he said, until "indifference and tolerance of officials shall have become positive friendship."

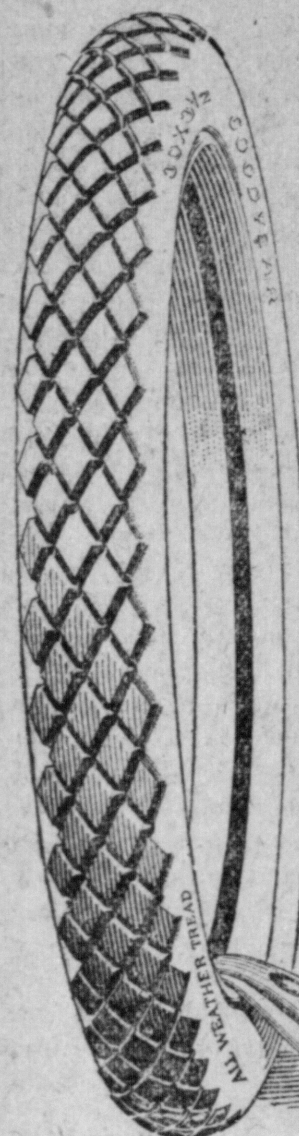

"While we are thankful for progress made we cannot ignore plain facts nor build false hopes," he said.

Prohibition "partially enforced" has proved its value, he said. Suggesting the party should retain its public ownership plank Watkins said "it is better the government should control the rail roads than that railroads should control the government. The unprofitable experiment in government management of railroads must not cause us to swerve from our demands" he said.

Returning to the older parties, Watkins said he was forced to the conclusion that each is "a marvelous combination of statesmanship and stupidity, patriotism and punk, rectitude and rottenness such as the world has waited countless ages to see."

The recently "disgraceful quarrel" between the president and congress Watkins said. The name of America has been scandalized while stubbornness paraded as principle and peanut politics wore the sheepskin of statesmanship. The president no doubt had his convictions but even a Republican senator occasionally has lucid intervals and can be reasoned with. On both sides too much setting of political stakes and too little of constructive statesmanship; too much of steering for votes instead of steering by principle.

Equip Your Small Car With Goodyear Tires

Goodyear Tires in the 30x3, 30x3 1/2 and 31x4-inch sizes are manufactured with characteristic Goodyear care to build high relative value into every carcass and tread.

Last year more cars taking these sizes were factory-equipped with Goodyear Tires than with any other kind.

In order to make these tires widely available to users of such cars, we are operating the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car requiring one of these sizes, go now to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size in waterproof bag \$4.50

GOOD YEAR

Bussard Garage

Goodyear Service Station — Solid and Penumatic Tires

"The president won his second term by keeping us out of war; he may lose everything by keeping us out of peace."

The loud support of the president's treaty stand are "very hollow sounding brass in the ears of those who saw 'watchful waiting' degenerate into disgraceful dawdling" Watkins said.

The temporary chairman said the country desired a League of Nations but that the assumption only one man was capable of framing it savored of autocracy and could not be accepted meekly by a free people. Watkins also attacked the Republican party. He asked if there were no Mexican problems during Republican administrations and asserted it was raising a false cry of "Americanism" in the League fight. Both parties have committed themselves to internationalism on some of their platforms, he said. He cited the tariff, the Money question and the control of colonies as questions in which one or the other party stood for internationalism.

"Haven't we been some party?" National Chairman Fred Hinshaw asked the opening session of the convention here today.

Hinshaw enumerated the planks the party had sponsored before the old parties had taken them up or they had been adopted without old party sponsorship. Among those for which he claimed credit to the prohibition party were:

"Woman suffrage, civil service, direct election of senators, opposition to lotteries, opposition to white slave traffic, child labor laws, uniform marriage and divorce laws and—above all—prohibition."

Hinshaw told of the lost plank in the Republican platform.

"According to the testimony of William Allen White and Reed Smoot" he said, "the resolutions committee adopted a dry plank but it was lost on the way to the convention. The entire convention adopted by unanimous vote a law enforcement plank, but that plank was lost on the way from the new convention to the Republican party printing press and that declaration is missing from the official platform issued by the Republican party headquarters."

Hinshaw also attacked the Republican and Democratic president-

ial candidates, Harding as an anti prohibitionist and Cox as an out and out wet.

Hinshaw said Senator Harding voted for the submission of the national prohibition amendment, but did so as the champion of the seven year clause sponsored by the wet crowd."

EVIDENCE HEARD IN GAS RATE CASE

Testimony Deals With Increased
Cost of Maintenance and Opera-
tion Since 1918

INCREASE ALLOWED THEN

Dividends Shown on Capital Stock,
Which is Third of Valuation Fixed
by Commission

Evidence was heard this morning in the commissioners' room of the court house on the petition of the Peoples Natural Gas company of this city for a increase of thirty-five cents a thousand cubic feet in their rates, by H. S. McNeely, an examiner for the Indiana public service commission, before which the petition was filed.

Much of the evidence was the same as that introduced before the commission in 1918 when the company's rates were raised to forty cents a thousand, with the exception that the company showed by the testimony of its secretary and superintendent and the gas well driller who has a contract to drill wells this year, that the costs of operation and maintenance had increased materially in the last two years.

T. M. Green represented the petitioner and George W. Young, city attorney, appeared for the city and H. E. Barrett for the remonstrators who object to the increase being allowed.

George W. Osborne, secretary of the company, testified that since 1918 his salary had been increased 25 percent, the superintendents 50 percent and that day labor had advanced almost 100 percent. He said the cost of pipe, meters, valves and other equipment had gone up from 75 to 100 percent and that some kinds of pipe had quadrupled in price. Mr. Osborne stated the company was unable to get some kinds of pipe, citing as an example that of 5,000 feet of two-inch pipe ordered in April, only 3,000 feet had been delivered.

Mr. Osborne testified that the contract price of drilling wells this year was \$1,590 as compared with \$950 in 1918 and that the materials which the company supplied when a well is drilled, had doubled in price.

He said that the company was now supplying about 500 consumers, which number did not vary much. He pointed out that the company paid \$350 in taxes, exclusive of federal taxes, in 1918 and \$612.50 this year; that there was a retroactive federal tax of \$120 in 1918 which will be practically the same this year and that the internal revenue tax for last year was \$240 whereas none was paid in 1918.

On cross-examination it was brought that the superintendent now receives \$30 a week as compared with \$21 in 1918; that the secretary's salary now is \$54.17 a month as compared with \$45 previously; that the cost of day labor now is \$4 and \$4.50 a day as compared with \$2 and \$2.50 in 1918.

Mr. Osborne said the company dug two wells in 1919 out of five contracted for and that the third well was completed this year but had to be abandoned because it was worthless. He said gross receipts for the fiscal year ending July 31, 1919 amounted to \$16,101.65 and estimated that the receipts for the present fiscal year would amount to \$16,967.

Through questioning by Mr. Barrett, it was brought out that the stock of the company consists of 198 shares with book value of \$100 each, and that the company paid a dividend of ten percent in 1918, twenty percent in 1919 and ten percent so far this year.

It was also shown that the value of the company was put at more than \$60,000 by the public service commission in 1918 when the commission was endeavoring to arrive at fair rate to be charged for gas, indicating that the stock is actually worth more than its book value.

Mr. Osborne testified there are now forty wells in operation and that in a test in 1918 they showed an average rock pressure of 47 pounds. No general test was made in 1919, he said, but this year a

MOTHER AND SON ARE FINED

Minnie and Roy Tanner Plead Guilty
Before Squire Stech.

Mrs. Minnie Tanner and her son Roy, were arraigned this morning in Squire Stech's court, Mrs. Tanner pleading guilty to a charge of profanity and the son pleading guilty to a charge of profanity, in each case the fine and costs, amounting to \$12.50, being paid. A charge of assault against the son was dismissed. The people were brought into court on affidavits preferred by John Henry Anderson, who paid a fine the day before. The people are residents of the extreme northwestern part of the county, and the trouble was over some chickens which required settlement in court.

BLOOD TRANSFUSION OPERATION PERFORMED

Jess Pugh, Formerly of This City,
Gives up Pint of Blood in Effort
to Save Son's Life

IS ILL WITH TYPHOID FEVER

Jesse Pugh, chautauqua and lyceum entertainer, who formerly resided in Rushville, submitted to a blood transfusion operation at Warsaw in an effort to save the life of his oldest son, Richard, age seventeen, who is critically ill with typhoid fever, according to word received here last night.

According to word received today, the operation was not satisfactory as Richard suffered with hemorrhages all day yesterday, and his condition was not at all good today. William Pugh, second son of Mr. and Mrs. Pugh, was to have his blood tested at Fort Wayne today for transfusion.

Richard was taken sick about two weeks ago and the nature of his illness was not at first discovered. When it was found to be typhoid fever little hope was held out for his recovery, and he has shown very little improvement. Last week he underwent an operation for a perforated bowel and the operation disclosed his critical condition. Mr. Pugh arrived at his son's bedside late last week and a number of relatives from here are also with him.

In effort to revive him and bring him through a crisis, Mr. Pugh gave a pint of his blood to be injected into his son.

WOMEN ANGLER MUST ALSO BUY A LICENSE

Suffrage Rights Compels Unmarried
Women to Pay For Privilege of
Hunting and Fishing

VACATIONIST SHOULD BUY

One of the disadvantages that has come to women with the granting to them of suffrage rights is that they must now secure fishing licenses if they are unmarried and desire to fish in the streams of Indiana outside of their own county or the counties adjacent to their home county. This ruling has just been handed down by the state fish and game authorities.

Men, whether married or single are forced to secure fishing and hunting licenses outside of their own or adjacent counties so the women are still favored in that married women are not required to obtain licenses to fish or hunt.

The state authorities have also ruled that fishing on Sunday is permissible while Sunday hunting is prohibited.

Likewise attention is called by the state fish and game authorities to the fact that persons who are planning to spend their vacations at the northern Indiana lakes should buy their fishing licenses before they leave home. Visitors at the lakes, it is declared, often find their vacations held up because they have failed to provide themselves with licenses.

Mayor Is Reported To Have Said City Building Is Private Property

Question of Keeping Locked The
Safe Which Contains Police Court
Records Is Subject of Private
Meeting Held by City Council
After Regular Session Tuesday
Night.

SAFE STILL LOCKED TODAY

At an exclusive private after meeting of the city councilmen called together last night by Mayor Irvin, the subject of locking up the city records and the city building, was the topic for discussion among the councilmen and lasted for thirty minutes. All that took place or was said at the meeting is not definitely known, and the public records today were still confined within the safe in the council chamber.

After the regular business had been transacted and everyone except the councilmen were asked to leave, the private session was held. It is said on good authority that the mayor maintained that the city hall was a private building and the records were not for the public.

City Attorney George W. Young was requested yesterday to look up a certain city ordinance, and after he had gone to the city building, he found the public documents locked under the combination of the safe's lock.

His mission could not be fulfilled as only the city marshal and mayor have knowledge of the combination, and as usually is the case, neither official could be found when wanted, and the city attorney could not locate the ordinance which he wanted to find out about.

The matter of conducting city court under cover has been the topic for discussion among business men for some time. People can demand to see these records whenever they want to, but it is a matter of inconvenience, and is quite different from obtaining the records in the county offices, which are never locked from public inspection.

It is understood that the mayor last night stated that the council chamber and city building were private properties, but one of the councilmen pointed out that the people of Rushville and taxpayers maintain that building, and it is as public as the Rush county courthouse, and that records are also as public.

It is only a recent thing to lock up the safe. A few weeks ago Albert C. Stevens, prosecuting attorney, and a representative of the Daily Republican, were in the city court looking over the police docket, Mr. Stevens' mission being to ascertain the number of cases in which the regular fee had not been collected for the state by the mayor.

During the investigation of these records, the police chief appeared and overheard what was going on, and within a few days the safe was locked from public inspection.

It has been pointed out that if the valuable papers should be locked it is no more than proper that they should be, but in case of locking up records, in which public money and police cases are concerned, they should be left open for inspection and should be left on the outside of the safe, like some of the other records.

(By United Press.)

Indianapolis, Ind., July 21.—Passage of the primary appeal bill by the house and adoption of Senator Beardsley concurrent resolution calling on President Wilson to re-establish fuel control by the upper body featured the morning session of the special session of the legislature today.

A political skirmish accompanied the adoption of the Beardsley resolution.

Senator English moved that action on the resolution be postponed until March 4, 1921, predicting that "we will have a republican president then."

Senator Elsner, minority leader, replied with an attack against the administration of Governor Goodrich and with the declaration that President Wilson would give the matter a fair and just consideration.

By a vote of 26 to 15, the senate sent the resolution to the house.

Senator Beardsley introduced the resolution late yesterday. Speaking on the motion of Senator English, he said: "Senator English probably has plenty of coal in his bunker but there are millions of people who have not."

The house bill repealing the present primary law went through the house with few opposing votes. It will now go to the senate.

Governor Goodrich's bill creating a coal commission to regulate prices and supervise the distribution of coal was reported to the senate by the committee without recommendations.

BUY CITY PROPERTY

Mr. and Mrs. J. W. Ryon have purchased the property at 811 North Arthur street belonging to Dick Smith, and will move there next week. Mr. Ryon intends to move his grocery store to his new residence.

E. BERGDOLL SURRENDERS

Alleged Draft Evader is Brother of
Grover Bergdoll

New York, July 21.—Erwin Bergdoll of Philadelphia, alleged draft evader, for whom the federal authorities sought two and one half years, surrendered himself today at Governor's Island. He is the brother of Grover Cleveland Bergdoll, for whom a nation wide search is now being made.

Bergdoll was ordered confined at Ft. Jay prison in which his brother was held prior to his escape from armed guards while on leave at his mother's home.

Bergdoll will probably be tried under peace time regulations in which case he will be sentenced for only six months imprisonment if convicted.

RESIGNS AS THE NEW SALEM POSTMASTER

George W. Higgins Announces He
Has Quit and Examination
Will be Held Here Aug. 14

TOO MANY BOSSES, HE SAYS

George W. Higgins, postmaster at New Salem, has resigned his position, to become effective September 30, and an examination for the appointment to that office will be held in Rushville on August 14. All applicants for the position should file certificates to that effect on application blanks which are available at the local postoffice or the New Salem office.

The applicant must have reached his 21 birthday and the examination is open for both men and women. The applicants must also reside within the territory supplied by the postoffice, and must be citizens of the United States. The compensation at his office for the last fiscal year was \$578, it being a fourth class postoffice.

The New Salem vacancy is the second postoffice in Rush county in which a postmaster has resigned this summer, the other one being at Milroy, in which a woman was the successful applicant, being the only one that took the examination. The examination will be held in the court house here, conducted by the local postal examination board.

Mr. Higgins stated that the reason for his resignation was because of the fact that the office "had too many bosses," and the salary was too small to justify his keeping the place.

WILL ATTEMPT TO REGULATE THE PRICES

State Federation of Farmers' Asso-
ciations Hopes to Settle Fertilizer
Controversy

TO ANNOUNCE RESULTS SOON.

Lewis Taylor, secretary of the Indiana Federation of Farmers' associations, has directed letters to county agents registered among the farmers about the high price asked for fertilizers, and in his letter promises the township organizations that the state association will attempt to regulate the price, and will announce in a few days what success they have met with.

It will be recalled that Orange and Richland township farmers in this county recently opposed the high prices asked for by the fertilizer companies and have decided to boycott the goods until the price comes back to normal, which they maintain must be a 20 percent reduction. Farmers at a mass meeting here recently are opposed to using fertilizer at the present prices.

Mr. Taylor's letter states that many farmers will not sow wheat this fall on account of the fertilizer, and in order to bring about a normal acreage, the state association is now attempting to bring about a regulation of prices and are inquiring into the amount of fertilizer that is available for the farmers this fall.

MAYOR ATTACKS PEOPLES GAS CO.

Reveals Alleged Workings of Con-
cern Which is Seeking an
Increase in Rates

IS A FORMER STOCKHOLDER

Street Commissioner is Instructed
To Give Property Owners
Notice to Cut Weeds

Assailing the proposed increase in gas rates, Mayor A. B. Irvin, as a former stockholder in the Peoples Natural Gas company, revealed to members of the city council last night the alleged workings of the company and suggested that the city council should take action through their city attorney, George W. Young, and offer a protest on behalf of the residents of the city.

The matter of hearing the petition of increased rates which was being held today in the court house, was brought up by councilman Abercrombie, at the meeting last night, and the matter was soon the topic for much discussion, with Mayor Irvin leading an attack on the proposed increase.

He first cited his experience as being a stockholder in the gas company, paying \$40 for a share, which he later sold for \$80. He stated further that he had investigated the financial condition of the company and had learned that they had a surplus of \$46,000, and that the stockholders were continuing to receive large dividends on their investment.

The directors of the gas company were also assailed by the mayor, who stated that each of them received \$400 a year and free gas for their homes, while two of these directors were also directors of the Rush County National bank, and received only \$60 a year for their services. He pointed out the difference in responsibility of the two jobs, and their contrast in salary received.

The matter of free gas was also discussed, as the mayor stated that four of the five directors lived in large houses and used an unlimited amount of gas, while those paying for it were not given gas when most needed. The four directors he referred to, have furnaces and the gas does not register through a meter.

He cited another instance in the petition of the gas company in which they state that one reason for higher rates is because of the price of labor has advanced. He asserted that they employ only two men, and that their salaries are the same now as they were six and seven years ago.

The salary of the officials were also said to be enormous and he cited an incident when he attempted to ascertain how much money one of the officials was receiving. He was then a stockholder, he said, and was inconvenienced in finding out the amount of money the officials was receiving.

Following the discussion, the city attorney was asked to appear before the Public Service Commission at their hearing today, and protest against an increase in rates. The city building is among the consumers that will be affected by an increase in rates.

The subject of weeds growing on vacant lots and other places within the city limits was discussed, and the street commissioner was ordered to give property owners ten days notice and then cut the weeds himself in case the order had not been complied with, charging the amount up to the property owners.

John Singer, street sweeper for the business district of the city, was given additional territory last night which includes all streets in the business district which had heretofore been taken care of by two street cleaners. He was given a raise in wages from \$17 to \$20 a week for his services.

The mayor's report showed that for the quarter ending June 30, he had turned over to the city treasurer \$130 and the county treasurer \$57 in fees collected in fines in the city courts.

JACK JOHNSON WILL BE SENT TO PRISON

Colored Puglist Is Arrested in California After Leaving Country on \$30,000 Bond

WHITE SLAVERY IS CHARGE

San Diego, Calif., July 21—Jack Johnson, fugitive puglist, crossed the international boundary line and was immediately placed under arrest on a white slavery charge, yesterday.

Johnson came across the line with Sheriff Clegg, of Los Angeles county. After reaching United States soil after an absence of several years, Deputy Sheriff Clegg, San Diego county, stepped forward and read a warrant charging Johnson with white slavery. The men then got into an automobile and were driven to the San Diego county jail.

Chicago, Ill., July 30—Jack Johnson, fugitive puglist, arrested in California, will be turned over to the United States marshal when he arrives in Chicago to be taken immediately to Fort Leavenworth prison, it was announced in the office of District Attorney Cline.

"There is nothing to do with Johnson except send him to prison," James Miller, assistant district attorney, said today.

Johnson was convicted on a charge of white slavery. He was charged with the transportation of a white girl by the name of Belle Schrieger from Pittsburg to Chicago. She formerly lived in Minneapolis. Johnson was released on \$30,000 bond following an appeal. The son left the country.

EVIDENCE HEARD IN GAS RATE CASE

Continued from Page One
test completed on June 7 showed an average rock pressure of 37 1/2 pounds pressure.

Mr. Osborne stated that in addition to the directors and superintendent, farmers on whose land wells were drilled, received free gas. In its order of 1918, the state commission ruled that the directors and employees of the company could continue to get their gas free under a law which provides that a corporation has the legal right to give its product to its employees if it so desires.

The attorney for the demonstrators also brought out that the directors receive \$100 a year each as salary, which was allowed by the state commission in its order of 1918.

John F. Jones, Jr., local coal dealer, testified that coal which is used by the company sold for \$5.50 a ton in the summer of 1918, and that this year the same grade of coal retailed at \$10.

James Keeling, superintendent, testified to the high cost of materials, and said that the wells had been abandoned for some time this year.

George F. Melcher, of Shelbyville, who has the contract to drill wells for the company this year, testified as to the increased cost of drilling.

THE NEW OVERLAND

On Triplex Springs smoothly glides over the roughest roads has written a wonderful story of stamina. The story begins with the unprecedented production test covering 250,000 miles of the wild country of the great Southwest. In its first eight months of service among 75,000 owners climax upon climax has been piled up in records of extraordinary performance.

The remarkable performance of the Overland is due largely to its jar-absorbing Triplex Springs, which prevent the usual pounding of rough roads from causing discomfort to passengers. They also reduce the stress and strain on motor and chassis, increasing the car for longer wear and reducing upkeep. The chassis itself of finest alloy steel adds to the stamina of the car as a whole.

The success of the Overland Triplex Springs has changed the attitude of thousands toward the light type of motor car. You cannot truly appreciate the comfort, economy and stamina of the new Overland until you have actually ridden in this car.

"THE DANCING FOOL"

Mack Sennett Comedy—"LET HER GO"

Special Music. No Advance in Price

DELEGATION SENT BY ANDERSONVILLE

The Rev. C. A. Swain, Pastor and Members of Congregation Attend U. B. Revival

EVANGELIST CARTER SPEAKS.

The meetings at the Coliseum yesterday and last night were well attended. The Rev. C. A. Swain, pastor of the U. B. church at Andersonville, and a member of his congregation, reinforced the evangelists.

Evangelist Carter preached the sermon last night. He talked on the theme "Folly of trying to cover your sins without the blood of Jesus". His appeal was very tender and heart searching, it was stated today.

As the meetings continue men and women are seeing the need of deliverance from sin on Bible lines, the evangelists declare.

Hilda Farthing, Esther Hardwick and Lydia Waning sang a very beautiful trio last evening. Meetings will be held every night through this week.

Amusements

Mary Miles Minter Here Tonight

Mary Miles Minter will be seen tonight at the Princess theater in "Anne of the Green Gables", which is said to be a comedy of the highest class, featuring the young star. Besides the feature picture, a Pathe News will be shown. Thursday and Friday, Wallace Reid in "The Dancing Fool" will be the attraction at the Princess, and a Mack Sennett comedy, "Let Her Go", will conclude the program. In addition to the two features, a special musical program will be rendered.

"Human Stuff" Here Friday

"Human Stuff," the newest Universal production starring Harry Carey, and said to differ in many respects from the photodramas in which the star has appeared of late is to be seen at the Mystic Theatre Friday.

What makes "Human Stuff" somewhat different is the fact that its early scenes are laid in the conventional East and show the star in an environment foreign to his accustomed stage characterizations. He is seen as the son of a wealthy manufacturer who, after trying his hand at running the business, is forced to admit himself a failure. He decides to seek adventure and fortune in the West, where his father owns a ranch.

Mistaken for a tenderfoot who has come to interfere with their nefarious plans, his neighbors conspire to drive Jim from the ranch, but here is in his element and enjoys the struggle against nature and the rough men who are opposed to him. Then a girl enters into his life and the fight becomes more exciting. Situations follow in rapid succession and the story ends in a typical Carey climax.

On Thursday the offering will be "The Lion Man," a Universal Western and a Franey comedy.

TO STUDY TRUCK'S VALUE

Indianapolis, July 21.—Indiana is to become the center for scientific study of the economic value of the motor truck. The motor truck association of America has established offices here to study the possibilities of the rural express and the short haul with the motor truck.

AT THE MYSTIC FRIDAY

For Dizzy Spell Got Best of Him

Had a Stomach Liver, Had to Take Medicines Every Night Often Waked With Vile Taste in Mouth.

Dreco Put an End to This Hunting-ten Man's Troubles.

"I frequently became so dizzy that I had to stop my work," declared Mr. Amos Coleman, a well known truck farmer 63 years old of West Huntington, Ind.

"I had to be taking medicines all the time for my sluggish liver and constipated bowels. I'd often wake up during the night with a vile taste in my mouth, my appetite fell down to almost nothing, really I got to where I didn't want to even look at food."

"One bottle of Dreco cleaned my liver off, regulated my bowels and I now have a large appetite. I never get dizzy, sleep well, in fact I'm feeling better than in a long time and credit Dreco for this great change."

Since the introduction of Dreco in this section many people have given it a fair trial and declare it has given them great relief from their suffering.

Dreco, being a combination of the juices and extracts of herbal plants combines very readily with the juices of the stomach and that is why it's action is so prompt and so positive. It is soon noticed after taking Dreco that the gas stops forming; the food digests perfectly, giving strength to the entire body, and renewing the vigor and vitality.

Dreco rouses a lazy liver to full action, strengthens weak kidneys overcomes constipation, headaches and biliousness, quiets the nerves and banishes catarrh.

All good druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson & Co.—(Adv.)

Plenty of Harvesters

The term, "army of reapers," is no longer a mere figure of speech. There is a veritable army of 100,000 men moving through the western wheat belt, harvesting the crop. It was organized by the federal Department of Agriculture, with the co-operation of the states most interested.

As a result, the grain is being reaped without difficulty. While the country as a whole is grievously short of labor, particularly farm labor, the farmers in the big grain sections have enough help, for the first time in many years.

High wages, said to average \$7 for a tenhour day, are a strong inducement, but the chief reason for this satisfactory situation is organization and direction of the labor supply from a responsible center.

It has been demonstrated now that labor, while remaining free to do as it pleases so far as individuals are concerned, can be marshalled to

Bulgarian Blood Tea

Is the greatest family medicine in the world today. One person tells how it broke up a bad cold in one night, another tells how it saved them from pneumonia, another tells how it knocked out the rheumatism, another will tell how it helped their stomach and bowels. No wonder it is used and praised by millions of people. Get Bulgarian Blood Tea today from your druggist, and then you'll be ready to tell the good news to other sufferers.—(Adv.)

Why should the movable labor of the country be utilized in this way for all kinds of industrial emergencies? Why should there ever be large numbers of men idle in one section or in one industry when another section or industry needs them? Why should "seasonable occupations" prevent workers from finding employment elsewhere or locally in other work, during their dull season?

There is ample room for the government to develop this plan that is now working so well in the wheat fields of Kansas and Iowa.

They Admit It

There isn't a doubt but what European countries need American money for construction work, and also for reconstruction work. They frankly admit it.

Some of our big financial institutions favor letting them have it, at heavy interest—the people's money that is on deposit with them.

But most people in this country favor keeping our money at home. There is plenty of construction work here, and it all requires money.

There are even many of us who have the temerity to feel that ten billions of dollars is about enough for Europe to owe us at one time. It is wiser to get some of that back before handing out more, or at least the interest on those ten billions.

Let's put our own house in order before we start another kindergarten for pauperized foreign governments. The bag we are holding is quite large enough as it is—ten billions large.

All men have minds of their own, but some rent them out to others for a price.

Every normal girl has roseate dreams of the time when she will become a wife and mother. But time, with some, transforms the dream of bliss into a nightmare of reality.

It's easier to tell others how to run their business than it is to run your own—but not so profitable.

Many foolish men know all things. A few wise ones know a little.

Never ask a woman her age. It is unbecoming to invite her to tell a lie.

The civilized world of today and the donkeys within it are surely

Some Blade— You'll say so!

YOU simply can't believe that such sharpness is possible—until you try a Durham-Duplex blade. A few broad strokes and—there you are—as smooth as the palm of your hand!

It's the scientific sharpening process that does the trick—and back of this the hard, oil-tempered Swedish steel.

They're the longest, strongest, keenest blades on earth—hollow ground, two-edged, detachable and guarded.

Some blade—you'll say so—and some blade is right.

akin. Both are experts at progressing backward.

"Whole hog or none", was the motto of certain gentlemen in the early days. Today it has been modernized and abbreviated into "whole hog".

It's an easy matter to find people with whom you can argue, but it's a devil of a job to locate one you can convince.

Sap and Salt

By BERT MOSES.

A fellow can stand almost anything if he is well.

Putting man-in-jail often leads to results much worse than leaving them out.

You can't buy vegetables that taste half so good as those you raise yourself.

Raising chickens and sending to gather results in raising well say it yourself.

Hez Heck says: "It makes a girl with sore when she gets and gets no results."

The fine art of successful business consists largely in giving people more for their money than they expect.

Here's Where the Fun Comes In

The Lure of The Horse Shoe

On a small vacant lot in the rear of the Daily Republican and east of the Twentieth Century Dry Cleaners, facing on the Subway, is a horse shoe pitching "links" maintained, fostered and carefully equipped and maintained by Balland Bebout.

Business men thereabouts, having no tennis courts or golf links on which to dispose themselves, frequently devote themselves earnestly to "pitching the shoes" before an interested and demonstrative audience.

The other morning Charlie (Betch) Caron put one batch of peanuts for roasting and happened to think of a mission down at his ice cream plant which also faces on the Subway and is directly across from the horse shoe grounds. He went but little did he think of the consequences.

Upon the hear of burnt peanuts began to permeate his candy and ice cream shop. Mrs. Caron was in the front part of the store and realized the trouble, as also did a number of patrons. A hurry up call was sent to the "links" but Charlie had departed in the heat for his place of business and Mrs. Caron found him in the rear industriously crushing the parched peanuts in an effort to salvage what he could.

CORRECTION IN AD

In the Bliss & Cowing advertisement in yesterday's issue of the Daily Republican, the prices given in two items were reversed. The price of men's pants should have been quoted \$3.20 up instead of \$5.95 up and boys' suits should have been \$5.95 up instead of \$3.20 up.

Foley's Honey and Tar Compound

IS A TIME-TRIED REMEDY that can be relied upon to get rid of coughs and colds that lead to serious illness if neglected.

Every One a Friend

"The only remedy we ever use for coughs and colds is Foley's Honey and Tar Compound. It has been our standby for years, and it never fails us."—T. H. Foley, Marquette, Mich.

"I can't praise the merit of Foley's Honey and Tar, as I have taken it with good results. Also have sold hundreds of bottles through my store."—Stanbury, Parkersburg, W. Va.

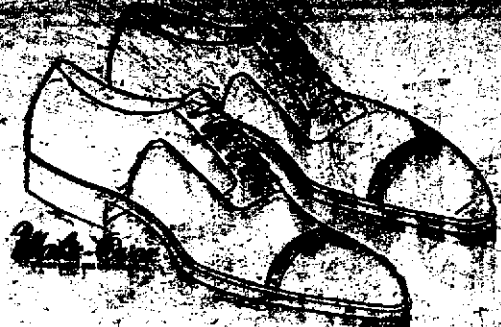

Children like Foley's Honey and Tar. It cures their coughs, and will not irritate a delicate stomach.

H. C. L. Blamed For Increase In Breach of Promise Suits
Milwaukee, Wis., July 21—The High Cost of Living is offered as an explanation of the increase in the number of breach of promise and alienation of affection suits filed in Milwaukee during the past year.

The number of such cases filed in the past twelve months exceeds that of the previous 3 years, according to records of the civil and circuit courts. Since the first of the year twenty-two breach of promise suits have been filed and sixteen actions for alienation of affection have been brought. Too poor to wed, is the excuse.

New Tasteless Castor Oil Is Easy To Take

Strength and Purity Remain The Same, But Unpleasant Taste Is Removed

A remarkable process perfected by the chemists of Spencer Kellogg & Sons, Inc., has resulted in a great improvement in castor oil, the reliable old family remedy. This new tasteless castor oil has the same strength and purity as the old-fashioned kind. It's 100% pure castor oil. Nothing has been removed but the nauseating taste. Think what this means to mothers and their children. When the doctor says "Give them castor oil," there need no longer be any trouble. Children need not know they are taking castor oil. Grown-ups will also appreciate the difference between Kellogg's Tasteless Castor Oil and the old-fashioned nauseating kind. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labeled Kellogg's Tasteless Castor Oil. Three sizes, 1 1/2, 3 1/2, and 6 1/2. Adv.

CHUBB.

You are hereby notified that said petition will be docketed and the Auditor of Rush County, Indiana, a petitioners' hearing for the repair of a certain drain will be held at the John A. Bouts et al Ditch hereof established in the Commissioners' Court of Rush County, Indiana. By increasing the width and depth of the public ditch and the following is the route of said drain:

Commencing on lands of Guy N. John and Roy L. Crombie on the east side of the northeast quarter (4) of the Section thirty-one (31), Township fourteen (14) north, range ten (10) said point being at the mouth of the several ditches running in a southeasterly direction throughout the southeast quarter (4) of said Section thirty-one (31) and through the center of said Aboumbe; thence in a westerly direction across Eleventh street of Rushville, Indiana; thence in a southwesterly direction across what is known as the City of Rushville, Indiana; thence in a southerly direction, through Arthur street and Second street, to where the same crosses under the I. & C. traction line; thence in a southwesterly direction across the Big Four Railways; thence in a southeasterly direction following the course of said drain as it now is; thence in a southerly direction to where the road running north and south on the east side of the Anna Denning land and which is the west line of the corporation of Rushville, Indiana; thence in a northwesterly direction parallel with the C. I. & W. R. R. to where the same connects with what is known as the Abram Hinkle main ditch; thence in a southeasterly direction to where the same crosses what is known as the Old Brookville Road; thence in a southerly direction following the branch as now located; where the said branch was as known as the Shellville turnpike; thence across said turnpike and in a southwesterly direction to where the same passes under the C. & E. traction line; thence in a southeasterly direction to the line dividing the lands of George E. Moore and Margaret Wymond; thence in a south line to the south line of the Section (36) of Township thirteen (13), Range ten (10); thence in a southeasterly direction through the lands of Birney Anderson to where the same crosses what is known as Big Flat Road River.

You are hereby notified that said petition will be docketed and the Auditor of Rush County, Indiana, on the 14th day of August 1920.

AN ERROR

of 2 millimeters in measuring the distance between the pupils of the eyes, when fitting glasses, may seem insignificant, but, in reality, would cause you much pain and discomfort in certain forms of eyestrain. Our eye examinations are so carefully and skillfully performed that errors are virtually impossible.

Rid of Its Torments
Rheumatism is more than a mere local disorder. It attacks the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The millions of little disease germs that cause the disease must be reached and eliminated.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood remedy because it searches out and eliminates the disease germs which infect the blood.
 For free expert medical advice regarding your own case, write fully to Chief Medical Adviser, Swift Laboratory, Atlanta.

Fence Posts That Resists Decay

Long-Bell Fence Posts are made decay proof and fire resistant by treating with Creosote (Dead Oil of Coal Tar) by the pressure-vacuum process. This preservative penetrates the entire sapwood.

We have these Long-Bell Posts in our big stock of building supplies, and recommend them as the best you can buy. We will consider it a pleasure to have you come in and let us help you figure on fence and other building plans.

"I Can't See How I Lived Through It"

Evansville Woman Thanks Tanlac For Ending Her Fifteen Years of Suffering—Gains 25 Pounds

"I have gained twenty five pounds in weight since taking Tanlac and never felt better in my life," was the remarkable statement made by Mrs. Louis McWilliams of 909 Fifth Avenue, Evansville, Ind.

"After looking back over my fifteen years of suffering I don't see how I managed to live through it all," said Mrs. McWilliams. "I had such a severe case of stomach trouble that I could scarcely eat anything at all," and even this little bit made me simply miserable. I bloated all up with sour gas until I could hardly stand it, and I suffered terribly from headaches and dizzy spells. Why, everything seemed to be spinning around and at times I would fall down and just have to lie there until someone picked me up or until the spell wore away. My kidneys bothered me continually and I suffered so with pains in the small of my back and in my left side that I don't think I could have been worse if someone had been sticking me with a sharp knife. I was so nervous that at nights I could scarcely

sleep at all. My complexion became very sallow and I got so weak that I couldn't do any of my work.

"After reading about the good Tanlac was doing so many other people," I began taking it myself, and its the best thing I ever did," for I began improving from the very first and am now a well woman. My stomach is in such fine condition that I can eat anything I want, and I have been built up in weight from one hundred and thirty to one hundred and fifty-five pounds. The headaches and dizzy spells are all gone, my complexion has cleared up, I have improved so in every way that I look like a new person. My kidneys never bother me now and my back and side are entirely free from pain. At night I sleep like a child and in the mornings I'm so full of energy that I can do all my housework, just as easy as I ever could in my life. I'm so grateful for what Tanlac has done for me that I can't praise it enough, and I feel that it is my duty to tell others about it."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty.—(Adv.)

WATKINS SLAPS OTHER 2 PARTIES

Prohibition Temporary Chairman Declares Republicans and Democrats Balance the Scales

CRITICIZES OLDER PARTIES

Says it Was a Disgraceful Quarrel Between President Wilson and Congress—Attacks Liquor Sales

Lincoln, Neb., July 21.—Aaron S. Watkins, temporary chairman of the National Prohibition party convention, today held the Republican and Democratic parties in the scales and declared they struck an exact balance.

Declaring the two older parties had produced a stone when the demand was for bread, Watkins criticized both impartially.

"The Prohibition party's mission is not ended, Watkins declared. Former liquor selling places are being held intact, he said, until "indifference and tolerance of officials shall have become positive friendship."

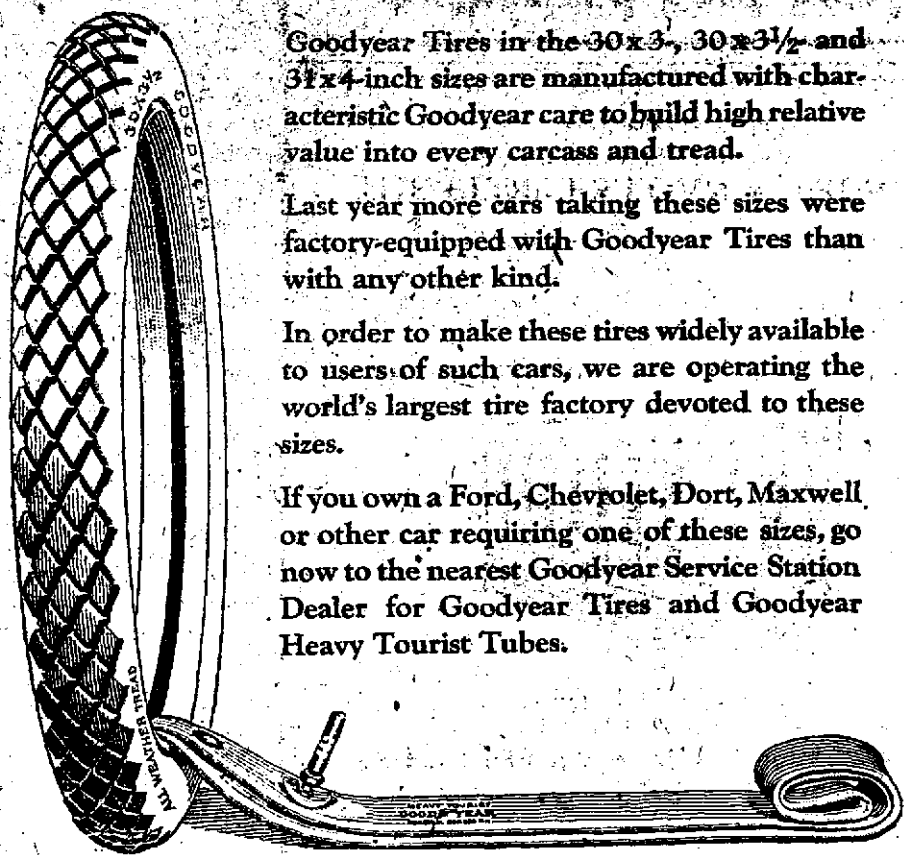

"While we are thankful for progress made we cannot ignore plain facts nor build false hopes," he said.

Prohibition "partially enforced" has proved its value, he said. Suggesting the party should retain its public ownership plank Watkins said "it is better the government should control the rail roads than that rail roads should control the government. The unprofitable experiment in government management of railroads must not cause us to swerve from our demands," he said.

Returning to the older parties, Watkins said he was forced to the conclusion that each is "a marvelous combination of statesmanship and stupidity, patriotism and punk, rectitude and rottenness such as the world has waited countless ages to see."

The recently "disgraceful quarrel" between the president and congress Watkins said. The name of America has been scandalized while stubbornness paraded as principle and peanut politics wore the sheepskin of statesmanship. The president no doubt had his convictions but even a Republican senator occasionally has lucid intervals and can be reasoned with. On both sides too much setting of political stakes and too little of constructive statesmanship; too much of steering for votes instead of steering by principle.

Equip Your Small Car With Goodyear Tires

Goodyear Tires in the 30x3, 30x3 1/2 and 31x4-inch sizes are manufactured with characteristic Goodyear care to build high relative value into every carcass and tread.

Last year more cars taking these sizes were factory-equipped with Goodyear Tires than with any other kind.

In order to make these tires widely available to users of such cars, we are operating the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car requiring one of these sizes, go now to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag

"The president won his second term by keeping us out of war; he may lose everything by keeping us out of peace."

The loud support of the president's treaty stand are "very hollow sounding brass in the ears of those who saw 'watchful waiting' degenerate into disgraceful dawdling," Watkins said.

The temporary chairman said the country desired a League of Nations but that the assumption only one man was capable of framing it savored of autocracy and could not be accepted meekly by a free people. Watkins also attacked the Republican party. He asked if there were no Mexican problems during Republican administrations and asserted it was raising a false cry of "Americanism" in the League fight. Both parties have committed themselves to internationalism on some of their platforms, he said. He cited the tariff, the Money question and the control of colonies as questions in which one or the other party stood for internationalism.

"Haven't we been some party?" National Chairman Fred Hinshaw asked the opening session of the convention here today.

Hinshaw enumerated the planks the party had sponsored before the old parties had taken them up or they had been adopted without old party sponsorship. Among those for which he claimed credit to the prohibition party were:

Woman suffrage, civil service, direct election of senators, opposition to lotteries, opposition to white slave traffic, child labor laws, uniform marriage and divorce laws and—above all—prohibition.

Hinshaw told of the lost plank in the Republican platform.

"According to the testimony of William Allen White and Reed Smoot," he said, "the resolutions committee adopted a dry plank but it was lost on the way to the convention. The entire convention adopted by unanimous vote a law enforcement plank, but that plank was lost on the way from the new convention to the Republican party printing press and that declaration is missing from the official platform issued by the Republican party headquarters."

Hinshaw also attacked the Republican and Democratic president-

ial candidates, Harding as an anti-prohibitionist and Cox as an out and out wet.

Hinshaw said Senator Harding voted for the submission of the national prohibition amendment, but did so as the champion of the seven year clause sponsored by the wet crowd.
